

Creativity Test

Deadline

Harshal Agrawal

Duration

## STEP 1: HYPOTHESIS

We believe that individuals, students in particular want to be creative and are willing to do so on their own time outside of class

Critical:

## STEP 2: TEST

To verify that, we will Give students a survey through google forms and analyze data for background of students enrolled in creative drawing classes

Test Cost:

Data Reliability:

## STEP 3: METRIC

And measure how many students took creative art classes voluntarily (in other words, they were not taking it for a major requirement) and how students respond on the google form about where they would spend an extra hour in the day and how much they are willing to pay for an hour of drawing time vs sleeping time vs other times

Time Required:

## STEP 4: CRITERIA

We are right if atleast 30% of students in art classes are not taking the class for a major requirement, atleast 30% of students would want to spend an extra hour in their day being creative vs doing some other activity, and if students on average value creative time in their top 3
