Do & Say

"Oh! A mirror!"

Start picking

Driving

"Damn, this client is stressful"

"Finally home"

Picks

"Time for bed"

Feel

I am insecure about my face

Ughh, I am stressed about work

Picks when no one is around
Stressed

I'm so bored and stressed

Tired

Think

Maybe if I pick at my face, it will look better

I wish I could pick, but my hands are driving

I need a release from stress

Wow this picking has gotten out of control

"Glad I am going to bed"
